

YOUR SAFETY IS IMPORTANT TO US

The Niagara Pumphouse Arts Centre is committed to doing our part to protect the health and well-being of our community. Below are some Health & Safety protocols we have implemented to ensure your in-studio participation in classes and workshops is safe and clean

(1) **Masks:** masks or face coverings that cover the nose, mouth and chin are mandatory

(2) **Hand-sanitization & self-screening:** required by everyone upon entry

(3) **HEPA Air Purification:** high-quality, ultrafine particulate air purification units in each room to greatly improve indoor air quality

(4) **Capacity:**

- in-studio programming running at greatly reduced capacity to create very small classes that allow for individual workspaces and physical distancing
- overall facility capacity reduced and number of visitors monitored by staff

(5) **Cleaning & Disinfecting:** studios disinfected between sessions and increased cleaning of frequently touched surfaces

(6) **Facilities**

- Washrooms: not for public use, only for in-studio participants and staff
- Kitchen: for staff only
- Instructors and students can bring food/drink, but must take home anything they bring in
- Food/drink can only be consumed while seated & physically distanced in order to remove mask temporarily
